

Environmental Policy

Spiral Drillers Civil Ltd is committed to the maintenance, preservation and enhancement of the environment and to ensure that its operations have minimum adverse impact on the environment. It is our responsibility to protect the environment and to achieve this objective we will:

- comply with all relevant legislative and legal obligations including the Resource Management Act 1991 and local government plans and policies,
- promote the sustainable management of our natural resource and the economical use of energy and physical resources,
- respect community values and assist other stakeholders in achieving their environmental goals,
- strive for continuous improvement in the prevention of harmful emissions to the environment,
- encourage good environmental practices among both our team and subcontractors including the setting and monitoring of environmental objectives, and
- educate, motivate, train and develop our team to ensure environmental responsibility and accountability.

Our environmental systems and procedures are integrated within our overall management systems ensuring compliance and continual improvement at all stages.
